Q1. How To Create Your Own resort booking Website?

ANS: If you don't know programming or don't want to pay someone to make it for you, there are tons of websites that can dramatically help you-- without much programming needed

But to truly customize your network, I would recommend starting a website from scratch (or hiring someone). You can learn the basics of making a resort booking website with PHP, MySQL, JavaScript, etc. That way, you'll learn programming in addition to creating the resort booking website.

Q2. What is your opinion about the payment system for booking a resort?

ANS: The system must provide online payment facility. The system provide debit card and credit card payment facility to users who wish to done their payment online.
